

It All Adds Up MATH

It's an easy solution to a professional equation and personal goal! Things add up more easily when you are a math teacher in Kerrville ISD.

KISD provides teachers and staff with the resources they need to be successful and support students. Multiply the high level of support the district provides by the involvement of our public school foundation, area colleges and universities, and caring parents, and you will witness a district never divided on supporting you or public education!

Proudly, Tivy High School was named a Region 20 Outstanding High School in Math and Science

Wild and wonderful things happen in Kerrville. Come grow with us!

KERRVILLE ISD

THINK BIGGER IS BETTER?

**Take a look at a
district with a lot of
heart...right in the
heart of the Texas Hill
Country**

Bigger isn't always better!

Located in the heart of the Texas Hill Country, Kerrville is approximately 60 miles west of San Antonio and has a growing population of over 20,000 residents and over 1,106 square miles of rolling hills, wildflowers, and greenbelts. The pleasant year-round temperatures, lush greenery, and crisp waters of the sparkling Guadalupe River flowing through the city offer families and residents a setting conducive to recreation and relaxation. But this Texas-friendly town also boasts big city services including shopping with recognized retailers to homegrown specialty shops, music, performing arts, fine art, and other important cultural and special events. Is coming to Kerrville on your horizon?

The little district that leads!

The Kerrville Independent School District (KISD) proudly serves the academic needs of approximately 4,900 students, and a staff of over 730 makes KISD one of the top employers in the county. With the highest starting teacher salary in the area, the attraction to Kerrville ISD is not just compensation, but camaraderie. Our positive educational climate, financial soundness, and sincere mission to provide our staff with the programs and resources they need to succeed, prove KISD is not just a place to make a living, but a place to make a life! Look at us lately:

- KISD is the only 4A or 5A district in ESC Region 20 and the area hill country to receive a TEA “Recognized” rating for three consecutive years
- Every single KISD campus is either “Recognized” or “Exemplary”

A Scientific Approach

The beautiful Texas hill country is a living laboratory. With invitations to learn inside and outside of the classroom, our students and staff have benefited in many areas, especially science and social studies, by the wealth of college and university programs willing to work with our students. Close proximity to numerous parks and recreational facilities and the availability of nearby camps opening their doors to our students for outdoor education inspire a quest for science. With test scores higher than they've ever been and among the state's highest, KISD boasts great gains across the board, in all subjects and all grade levels, including, but not limited to:

- All KISD campuses received three or more Gold Performance Acknowledgements for Commended Performance from TEA
- Multiple campuses were named Texas Business and Education Coalition Honor Roll Schools for the 4th consecutive year
