

Linking Cube Subtraction

You need: 10 cubes each, number cube labeled -1, -1, -2, -2, -3, -3 and a partner

Make a train with your 10 cubes. Take turns. On your turn,

- . Roll the number cube.
- . Subtract that number of cubes from your train.

The WINNER is the first to subtract all of the cubes from his/her train. You must roll exactly what you need to win.
